

**FOR IMMEDIATE RELEASE – CORRECTION**

**TSX Venture: QPT**

## **Quest PharmaTech Inc. Retains Haft Group for Financial Services**

**EDMONTON, ALBERTA, Sept 6, 2016** – Quest PharmaTech Inc. (TSX-V: QPT) (“Quest” or the “Company”), a pharmaceutical company developing and commercializing products to improve the quality of life, today announces the appointment of the Haft Group, a New York based communications and advisory firm with 30 years’ experience, to provide financial and investor relations advisory services for a period of 6 months at a total fee of US\$18,000 plus expenses for the US and Canadian markets.

“I am very pleased to work with the Haft Group to expand our outreach and presence with the investment community and our shareholders” said Dr. Madi Madiyalakan, Chief Executive Officer of Quest and OncoQuest. “Quest’s current business model, with a primary focus geared to the development of breakthrough cancer research, operates through its 5 independent business units under the Quest umbrella. Each business unit has its unique technology in (i) combinatorial immunotherapy through its subsidiary OncoQuest Inc.; (ii) immunotherapy in China through OncoVent Co., Ltd.; (iii) targeted cancer therapy; (iv) health and consumer products; and (v) transdermal delivery technology. Together they all add value to Quest.” added Dr. Madiyalakan. “Through the Haft Group and the Company’s advisors, Quest will address both the US and Canadian financial markets, with the focus on expanding the capital and public exposure of the Company”.

### **About Quest PharmaTech Inc.**

Quest PharmaTech is a publicly traded, Canadian based pharmaceutical company developing products to improve the quality of life. The Company through its subsidiary, OncoQuest is developing antibody based immunotherapeutic products for cancer. In addition, the Company owns the Photodynamic Therapy technology for oncology and dermatology applications, licensed to Bioceltran Co., Ltd., a Korea based company (Bioceltran). Quest has an ownership interest in Bioceltran which is focused on SP Technology™ for transdermal delivery of drugs and photosensitizers for pharmaceutical and cosmetic purposes. Quest also markets consumer health products worldwide, including Bellus Skin™ serum, a premium anti-wrinkle skin care product licensed from Korea. Quest is also developing an antibody licensed from University of Nebraska, Mab AR 9.6 against truncated O-glycan on MUC16, for targeted cancer therapy applications.
